

# PERMANET

**The PERMANET project** aims to establish an innovative Network of EU actors to ensure a resilient supply of Rare Earth Permanent Magnets (REE PM) in Europe. It is composed of relevant stakeholders and players able to provide equipment, R&D services and expertise to accelerate the development of cutting-edge technologies in the REE PM industry to match EU industrial demand.

**The PERMANET Structure:** during the project 13 technological innovations will be tested and scaled up. They address the whole value chain of REE PM through the implementation of 3 technological hubs organizing thematic collaborative R&D and supply ecosystems. To boost the scaling of the technologies PERMANET will address the key conditions for sustainable and competitive REE supply through the implementation of 5 enabling engines.

## PERMANET Technical info

Project number: 101178444  
 Call: Horizon-CL4-2024-RESILIENCE-01  
 Granting authority: European Health and Digital Executive Agency (HADEA)  
 Total eligible costs: 20.819.760,50€  
 Funding rate: 70,1%  
 Project duration: 40 months  
 Number of partners: 32  
 Coordinator: Tecnicas Reunidas SA
